Cat Bits

Delicious treats with a benefit!

Vit-Bits for cats are crunchy treats filled with delicious multi-vitamin paste. The perfect snack in any situation, with added taurine, which is essential for good eyesight. A well-balanced combination of extra B vitamins, which prevent nutrition-caused deficiency symptoms such as: loss of hair, skin problems and dull coats.

Salmon flavored Malt-Bits combine the great taste of the crunchy treat with the benefits of a hairball paste.

Malt-Bits for cats are crunchy treats filled with malt paste; the easy way to prevent and treat hairballs! Malt-Bits hairball remedy combines the great taste of treats with the benefits of a hairball paste. Regular brushing and the use of Malt-Bits hairball remedy will help alleviate hairball problems.

Catnip-Bits for cats are delicious, crunchy treats filled with catnip paste. They contain many essential vitamins and minerals that help keep a cat in peak condition.

Dental Bits are specially formulated to keep cats' teeth clean. 85% of cats have dental problems, mainly caused by a built-up of plaque and tartar on their teeth. These Dental Bits are filled with chlorophyll, a natural plant extract well known for its ability to absorb bad smells.

Also available in Beaphar company branding style.

Glossy Coat Easy Treat bits are medicated treats for cats to support healthy skin and glossy coat. These delicious treats are filled with a specially formulated and tasty paste, rich in omega 3 & omega 6 fatty acids.

Also available in Beaphar company branding style.

Joint Fit Bits are filled with a core of valuable joint nutrients. These treats contain Collagen Hydrolysate and natural Glucosamine from shellfish and crustaceans; supporting joint mobility and helping promote the natural regeneration of cartilage over the longer term. This product contains natural ingredients which may lead to small color variations.

Malt Bits Light are a reduced calorie, malt flavored treat. Containing approximately 50% less fat than our standard Malt Bits, they are ideal for cats with a tendency to obesity. These light, crunchy cat treats are filled with delicious malt hairball paste which will help to ensure the smooth, natural passage of ingested hair through the intestine. This product contains natural ingredients which may lead to small color variations.

These **Stiff Joint Bits** have been formulated especially for cats dealing with stiff joints. These bits will help support the joint mobility and will allow cats to enjoy their life to the fullest. These delicious treats with a benefit contain paste that includes Glucosamine, which is known to support joints.

Urinary Support Bits contain cranberry powder to encourage bladder health. The low levels of Vitamin D and Calcium help to prevent the formation of bladder stones thus protecting against damage to the bladder wall.

Available in Beaphar company branding style.

These **Senior Malt Bits** are a reduced calorie, malt-flavored treat. Because of its low fat rate, these treats are especially ideal for older cats that do not get as much exercise as adult cats do. The added malt paste helps ensure the smooth, natural passage of ingested hair through the intestine, reducing hair balls with senior cats.

Kidney Support Bits are formulated with a suitable level of high quality protein and a limited level of phosphorus to prevent build up in the blood.
